

4G VoLTE phone1 Presentation

**A Technically advanced 4G
Fixed Wireless Terminal**

Product appearance

**A user friendly interface*

Product Features

- Chipset:ZX7520V3
- LTE Bandwidth :1.4/3/5/10/15/20 MHz
- MIMO : MIMO 2x2
- Network mode : LTE/WCDMA/GSM
- Frequency : Frequency can be customized
- WIFI : 2.4G
- Support time auto update function
- Support call forward , call transfer .
- Support lock frequency
- Support lock network
- Support WIFI hotspot function .
- Support VOLTE .
- Support FOTA .
- Support TRO69.
- Support Wired network

Product spec

Working Mode	TD-LTE/FDD-LTE /WCDMA /GSM
Frequency	TD-LTE : B38/B39/B40/B41 FDD-LTE : B1/B3/B7/B8/B20 Quad-band EDGE/GPRS/GSM WCDMA: B1/B8 Frequency can be Customised
Catagory	CAT4
Antenan	External 4G antenna + Inbuilt WIFI antenna
WIFI	2.4GHz
LCD	2.4 inch , 128*64mm
Buttons	Numeric keys + navigation keys + shortcut keys + function keys
Voice	VOLTE/CSFB
USB port	Ethernet port function, support for wired Internet access
Handset	4P 4C
Battery	3PIN , 3.7V/2000mAh Li battery

Product Spec

SIM/USIM	Support 1.8V/3V SIM/USIM card .
Encryption card	Support
Status display	Support 4G network information , network quality , signal strength etc ;
Lock Frequency	Support
Lock Cell	Support
Lock Operator	Support
Lock device & Sim card	Support
Phone function	Support voice dialing, support SMS, address book support
Network protocol	Support 4G mobile traffic to network port communication
Dial function	Support manual dialing, automatic dialing, PPPOE dialing
Configure upgrade	Support local, platform firmware upgrade, configuration upgrade
Firmware upgrade	Support
SIZE	223mmx174mmx76mm
Working temperature	-20°C -- +40°C
Working humidity	5%--95%
